Please join us in thanking Jess Weidman, DVM, and the associates of CVCA-Richmond for their time and effort in providing this important cardiac clinic for early detection of Dilated Cardiomyopathy (DCM). We are especially thankful for being able to offer this Clinic during the ongoing pandemic. The clinic is coordinated by DAR&E, so please direct any questions to the contact person at the email listed on the Registration Form.

DCM is one of the most common acquired heart diseases in dogs, especially those breeds with large chest cavities. Large and giant breeds are most affected, but it also occurs in smaller breed dogs and cats. DCM is a slowly progressive disease, however, in animals with early detection, medical therapy can help prolong survival and provide a better quality of life for several more years.

Because of CVCA's support and cooperation, we can offer this Cardiac Clinic at a significantly reduced cost. This is a savings of 50 to 75%, as the cost of this Echo exam is typically over \$600. We have a Limit of 40 spots available. However, we must have a **MINIMUM of 20 exams** scheduled, or the clinic will be CANCELLED!

A portion of the proceeds from this clinic will also assist neglected, abused, and abandoned Doberman Pinschers. DAR&E (Doberman Assistance, Rescue and Education) is a non-profit, all-volunteer organization operating in DC, Maryland, Virginia & parts of WV.

The clinic cannot be used as a pre-op cardio screening, and pets with known problems should make an appointment to see their regular cardiologist. Tell all your friends and fellow pet lovers about this clinic. **This clinic is open to ANY DOG BREED.**

Dogs can have food and water as usual. Anxious dogs that typically get a sedative to go to the vet can take these at their regular doses.

**THIS IS A SCREENING CLINIC ONLY – DOGS WITH KNOWN PROBLEMS  
SHOULD BE SEEN BY APPOINTMENT BY THEIR REGULAR CARDIOLOGIST**
